July 18, 1968

Dear Hal,

Your letter received the other day. Since my arrival here, there's been a real heat wave in Jersey with temperatures up in the 100's. I'm not quite used to it and the humidity seems to sap one's energy. But a cooler spell is due and soon.

I checked with the bus schedule of Greyhound and they said I could make a connection from Baltimore to Frederick. This will be the way I'll travel since I definitely won't have a car available.

I would have taken the bus to you by this time but first I want to check out a few things in New York. I've written to Trent Gough in New York and hope to meet with him before I see you. There are others in N.Y. I'd like to see such as Sylvia Meagher, Sprague, etc. before coming to see you.

Speaking about New York, did you know that Garrison will be speaking in N.Y. on Aug. 7th (Wednesday)? He's to appear at the Mark Hellinger Theatre, 237 W. 51st St. together with Mark Lane. I plan on being there, and will tape the talk.

Keeping the above date in mind, just when do you think I should come out to you? I could leave either during the week or on a week-end by bus and stay for several days. I'll leave the dates open based on your discretion for you know better than I when you'll be relatively free.

I'll call you when definite dates are set.

Best,
Hal
